

To the lecture "Man and the Earth"

The lecture „Man and the Earth“ is a perfect dot, after only man's word: True Revolution!

But this lecture, however, is not from man, but from THE TRUE OWNER OF THE EARTH!

To some ones, maybe, only a smile appears on their faces by these words again, but it is their problem. So they could always ask the question them themselves: „What was on the Earth sooner? Was it egg or was it the chicken? “ Equally they, together with the scientists, could search an answer to how the Earth and the men were created.

In the Word of a true Lord and Owner, all the questions are already answered!

Whereas men still have no time, nor fancy for this explanation of true ruler, but mainly **for some other reason**, will now only a short human word be maybe useful for you:

The other reason is that today, also the man can form and effect only through the radiation!

Indeed, all of us, at home manage forming of picture, that is wished by us in the television, precisely in that manner. We meet the same kind of information transport **through radiance at every step, literally.**

So why the same kind of formation in the universe, on Earth, and everywhere around us seems to be hostile to us; especially when we still do not have clear understanding to radiations at all, which flow towards us from the universe, nor to those which surrounds us directly?

Indeed one and the only reason is that we did not mind to agree the true instruction by the True ruler, it all because we ourselves wanted to play the role!

AND THIS IS THE MAIN STUMBLING BLOCK OF ALL OF OUR REVOLUTIONS!
