## INDEPENDENCE

*In the previous article we offered an advice to exchange the lord in your life. Surely in regards to that advice, many have asked the following question: “What’s in it for me and what do I get if I replace my lord?”*

*There is a very simple answer to that question but as always the hardest is to understand it because even our up-to-day knowledge taught us the following: “**The development takes place in a spiral, from the primitive through the difficult back to primitive!**”*

*Unfortunately, we are still only at the stage when our knowledge has left a "primitive" and it got to the stage "difficult". It is observable in all areas and activities of ours – earthlings. Therefore, we have to explain the question in the appropriate way for us, i.e. we will try to reach the simplicity through the difficulty.*

*There is perhaps no one who hasn't found out yet and therefore understands that we can observe all around us stage of the mass (or matter), which is controlled by intelligence. And only this intelligence allows us to ask questions, although mostly of primitive nature but already with a blink of difficult. Thus, there is intelligence and this intelligence is in development. This can be observed in our surroundings as well. But as already indicated, the development has also brought to us such level of knowledge, in which we have obtained in our surroundings the evidence that this development is not just the prerogative of the Earth. This development takes place also in a remote area that we call the universe. We have even been instructed and some of us have already found it by themselves, that other worlds are also part of this “remote area”; worlds that have been recently still unobservable, i.e. unknown although we have been alerted about their existence in the past.*

*The more we expand our knowledge about those other worlds, the more everything becomes complicated and we cease to understand many things. That is exactly the reason why the “**user manual**” was brought to us many times before, so our exploring of surrounding space could be conducted more easily, as we already mentioned in previous articles. The “user manual” has always been adjusted to reflect our knowledge. But what has always happened? That manual has been rejected as unnecessary by us or has been perceived as obstruction by some. It required our alertness and mainly gave us an explanation that our intelligence, hitherto gained, is still only at the stage of imperfection. Even more, the manual showed us that there is somebody who stands higher (above us) from the perspective of the spiral of progress. And it affected direction of the majority according to the degree of everyone's knowledge, but especially after finding out how low the spirits stand in Creation, and are exiguous at the same time. And somewhere there, in this awareness, the root of all evil originates and rests.*

*Only unconscious creature can be controlled; and knowledge frees. That is why the “manual” has been brought to us and at the same time it is a root to reason why this “manual” was concealed from the eyes of majority of people. **If I focus someone’s attention to the more powerful Lord than myself, that’s the way to lose my own power!***

*And now we hit the nail on the head, because there lies the cause of the struggle for power, the cause of concealing the Truth, the cause of human ignorance. **It's a bad habit inherited from our ape ancestors!** It's unflattering knowledge, but unfortunately ... true. It's an animal struggle for livelihood, for supremacy in the gang and fight for females. Man, however, is little more than*

*an animal because in addition to the soul that controls the animal still has a spirit. But man just does not know anything about the spirit and still does not pay an appropriate attention to it. That's precisely what we've been instructed in the above-mentioned "manual".*

*We have been instructed in this manual about everything necessary. Everyone who seeks the wisdom can detect it, i.e. come to knowledge that a force is flowing throughout our universe and whole nature. The force that creates everything, keeps everything and all creatures in nature, the universe and all of Creation utilize it. When there is power, there must be also its source. And that source really exists. It is the cause of all causes, **The Primordial Source, the Primordial Light, intelligence of all intelligences – GOD!** He is personality and is the only one who is **INDEPENDENT!** All other beings are dependent on this source and they can change their quality with the help of their knowledge **but only within limits of their own essence.** And here we come to another reason for concealing the Truth, denial of the right Lord because we have been instructed in the manual that **our essence only allows development to a certain limit. Thus, man always remains dependent!***

*We all have an experience how hard a man bears or overcomes his or her own humiliation, i.e. degradation. **Only the humble ones are able to deal with it!** And this fact forces us to revolt as if to defy the humiliation and become rebels. Therefore, we reject the Truth together with right advice and guidance. **We have to learn all by ourselves on our own faults that cause us damage!** Just as is the case of car damage caused by the old engine oil that should be replaced a long time ago. Or, if we do not take the umbrella, we get wet.*

*Thanks to mistakes and disappointments in life we alone must discover these simple but important circumstances. **Such great disappointment awaits us in the near future. All that in order that some of us could reach the eternally sought but long ago offered Truth alongside with acquired humility.***

*And this is also the reason why a person constantly strives for a false independence, i.e. such an independence that makes only the neighbours dependent, so that he himself can enjoy **the false, or the desired "independence".** Such person makes himself the lord and tries to make his surroundings be dependent on him.*

*However, at the main page in the article „True revolution“ you can find explanation **that there is only one LORD, only HE alone is totally independent because everything originates from His power, His intelligence. Therefore, only He alone is righteous because He does not need any dependence. He does not need anything or anyone to exploit and certainly not abuse; contrary to our lives where we can see such exploitation and abuse all around us.***

***And that is the reason why we should serve the True Lord! Our service to Him makes us free within limits of our essence or we can say – KIND!***

*All others are so-called "self-appointed individuals" who want to abuse their surroundings and even the True Lord. They deceive Him this way and lead to perdition those who serve them. The same situation is with the origin of all evil - Lucifer, aka "prince of this world" as was called by Jesus. He also only abuses the power that was given to him by the True Lord. **He is also totally dependent on the True Lord – God!** Therefore, remember you all who bypass the True Lord that sooner or later you will pay very unpleasantly for your wrong service. It does not matter whether you assume yourselves as lords or you are only servants of such so-called "lords". Even more, it does not matter whether you remain "free" or you consider yourselves as "independent" and you do not care about these things. One way or another, you still utilize the power of the True*

Lord; you are indebted to Him and you are unworthy servants. The seed of desire for independence also grows inside you. But this independence is contrary to your true essence, i.e. **your kind** because **"to be independent" is beyond cognizance of human spirit**. For this to happen, human spirit would have to change its essence (nature) and become God. But His existence already eliminates such possibility.

Once you are aware of this knowledge, then all our struggles and striving for the usurpation of everything that has been given to us, become ridiculous. Current situation and fighting on Ukraine can serve as best example. EU and the USA, i.e. "the world powers" have imposed embargo on the country, which own energy resources, i.e. the strength of present civilization. So, there is embargo on the country that is energy-independent but only in short period of time. Soon, everything will change. What can EU and USA achieve by imposing such an embargo? What is the reason for such an action? The cause is just a disguised effort to seize from the current "owner" of its resources and thus cease to be dependent on this owner and gain the wanted independence by acquiring these resources for themselves. If they turn their efforts in the right direction, according to instruction of the "True Donor", they would not need to strive for assets of others because everything was given to them also to the same degree. But to act like this it would also require the true service on their side, i.e. **recognition of the True Lord to whom service they just only falsely pretend; all this in order to please the subordinated "sheep" as it is so popular nowadays and even in order to consolidate their own power. By doing so, they only make angry the True Lord instead of gaining the independence!**

Mankind does not face crisis out of **energy shortage** as someone is trying to imply. On the contrary, there is a risk of crisis because of an energy surplus and its incorrect use. There is abundance of energy in various forms all around us. Everything is the transformed neutral power of God, which was given to everyone and free of charge. The result and present situation is only a remnant of that "animal activity" (as was written above - the animal struggle for livelihood, for supremacy in the gang and fight for females) and our primitive skills on how to use that transformed neutral power.

So this was the necessary explanation of why we should strive for service to the **True Lord** and not to desire for independence, which man will never be able to reach. The evidence lies in our history – all those unsuccessful rulers; ideologies that we created and even all inventions, no matter how perfect they seem to be. It is just a ridiculous "act of the animal" or a child of creation at best, which arrogantly boasts about what it is capable of. More advanced beings find in such acting only reason for laughter or often crying. Moreover, there are often times when our actions generate dislike, aversion and even contempt of these more advanced beings. Even we ourselves have already separated and put into detention facilities those who are not willing to adapt. The same will happen with our entire human civilization here on planet Earth.

The solution is always here. We just need to be willing to get advice and be taught, and we will be able to solve every problem without fighting, wars, hatred and suffering. Once again, the current situation on Ukraine can serve as best example. If we knew and respect the **Law of Homogeneity, which is valid in whole creation**, then we would try organizing our society also according to this law. There are many people in Ukraine who tend to the east – to Russia because their roots go back there. The same situation is also in Russia, i.e. there are also many those who tend to the West because their roots go back to the West; if not the roots of their present lives, maybe the roots from their previous incarnations. Therefore, according to the Law of Homogeneity, the solution is easy. Let all those restless ones move to place where their roots are. Even more, let's help them make this move. **Dissatisfied "Ukrainians" to Russia and vice**

*versa! Thus, nobody else would need to suffer because of their dissatisfaction. But in current situation, i.e. in how the Ukrainian problem is trying to be solved, there are unnecessary casualties not just among those who are dissatisfied, but also among those who are not involved. Yet the solution is simple! But our “animal past” prevents us to proceed with the simple solution. Because we do not know our true essence and refuse in ourselves the one, which is higher – the spirit!*

*All those who lost their lives in battles found already the right common homogeneity!  
It means, they found that they did not deserve either the life in Ukraine or in Russia and they  
will have to reconcile themselves with even worse fate.*

**LET THESE WORDS BE A WARNING FOR THE REST OF US!**
